

Donnybrook Farm Service  
would like to thank you  
for your continued  
support in 2018

We wish you and your  
family a safe and prosperous  
New Year in 2019

Enjoy the convenience of getting  
your invoices, statements and  
monthly newsletter emailed

No more waiting until the end of  
the month to get your invoices,  
they can be emailed automatically,  
so you can keep track of them  
easily! Just let us know and we  
can change it over for you

## CAREFUL WHAT YOU ... SMELL!!

A papa mole, a mama mole, and a  
baby mole, all live together in a little  
mole hole.

One day, papa mole sticks his head  
out of the hole, sniffs the air and said,  
'Yummy! I smell maple syrup!'

The mama mole sticks her head out  
of the hole, sniffs the air and said,  
'Oh, Yummy! I smell honey!'

Now baby mole is trying to stick his  
head out of the hole to sniff the air,  
but can't because the bigger moles  
are in the way.

This makes him whine, 'Geez, all I  
can smell is....

**MOLASSES!**

# RETURN OF NATFLAV 500

Growers who have been baiting for Mediterranean Fruit Fly would remember a protein bait/attractant called Natflav. It disappeared off the market for a few years, but Agnova have purchased the product and refined it a little.

Natflav 500 is the protein bait used as the attractant for fruit fly. It does not kill the insect, this is done by the insecticide Maldison or Lepidex which is combined with Natflav and applied as a course droplet to the fruit tree.

Some people who have been in the fruit Industry for some decades preferred this product as there is no fruit bleaching if the bait droplet contacts the fruit, also the effectiveness of Natflav in Mediterranean Fruit fly control. Part of the refinement to the new Natflav 500 is the elimination of the white flake residue that existed in the old product. The flakes caused some jet blockages when the product was applied.

As Natflav 500 has just been released there has not been time to test this claim – time will tell.

**FILTER CARTRIDGES  
VARIOUS STYLES AVAILABLE
